Draw vein lines with Mehron's Green Pro-Pencil Slim on neck, chest area and temples.

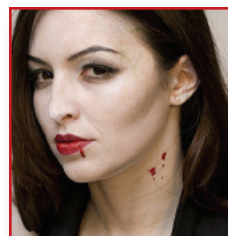

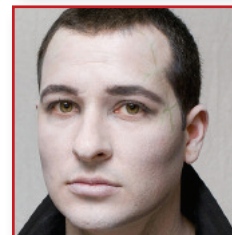

**STEP 3 - Face**  
Apply a thin, even coat of Mehron's Celebré Blithe Spirit on face, lips, neck, chest and arms (if exposed) covering over the veins.

**STEP 4 - Face Contour & Eyes**  
Using Mehron's Shado-Liner Black with Sponge Wedge make defined "hollow" facial bones to accentuate cheeks, jaw and temples.

For female models create a smoky eye effect with Mehron's Shado-Liner Black using your finger to smooth out black on corners of eyelids. With brush eye-line the eye and define eye-brows. For Male model use same technique creating a lighter smoke on eyelids with your fingertips. Less is more for the male models.
