mehron

**Easy
Step-by-Step
Instructions**

Step 1 – Start with clean skin. Warm Mehron's 3D Gel in hot water (not boiling) until it liquifies. Carefully pour small amounts on the skin. As it cools it will solidify. Continue until all desired areas are covered.

Step 2 – Use fingers to tear holes in the 3D Gel. Then apply with a sponge Mehron's *Zombie Flesh* over the entire area. Use Mehron's *ProColor Ring Bloody Rose* to color in

the open wounds.

Step 3 – Use another sponge to apply Mehron's *ProColor Rings Spanish Olive* to add additional color to the skin.

Step 4 – Use Mehron's *ProColor Ring's Burnt Maroon* to fill in around the eyes and other pitted areas. Color the lips with *ProColor Ring's Spanish Green* or *Midnight Sky*. Keep the skin blotchy.

(Hint: Do Steps 1 through 5 to the hands to complete the look)

Step 5 – Dry the teeth and brush on Mehron's *Tooth FX Nicotine/Decay*. You can do this as a solid color or spotty.
